

04-06 JUNE 2024

EXPOCENTRE Fairgrounds
Pav. FORUM, West Hall

CONFERENCE WIRE PLAZA WWWIRE

04 JUNE 2024

11:50 OPENING OF THE WIRE PLAZA 2024 CONFERENCE

Alexander Shaynikov, CEO of Expo Fusion LLC, Rafael Grigoryan, co-producer and moderator of Wire Plaza

SECTION:

Wires, cables and metalware: today and tomorrow

- 12:00 Market analysis: wire and cable industry in the new realities
- 13:00 Current state support measures and incentives for industry development
- 13:30 Trends in legislation and law enforcement

SECTION:

Metal and insulation

- 14:00 Aluminium, copper and steel: prices and availability
- 15:00 Second life of metals: scrap metal
- 15:30 Insulation for cables: new materials and efficient solutions

SECTION:

Prospects for consumption of wire, cable and metalware

- 16:30 Construction industry forecasts
- 17:00 Market and consumer demands
- 17:30 Digitalisation and innovative design and construction

05 JUNE 2024

SECTION:

Self sufficiency

- 11:00 Successful case studies of local wire players
- 12:00 Potential of b2b marketplaces
- 12:30 Software and digital services for new times

SECTION:

Circular economy, logistics and HR

- 13:00 How recycling makes the world a better place
- 13:30 Optimizing resources and reducing carbon footprints
- 14:00 Logistics as an industry indicator
- 14:30 Working with talent: searching, training and retention

SECTION:

Standards, certification and quality

- 15:00 Overview of standards legislation
- 15:30 Certification and labeling trends
- 16:00 Innovation and patent law: industry overview
- 16:30 Quality control and product safety

06 JUNE 2024

11:00 Welcome speech Evgeny Grinin, co-producer and moderator of Wire Plaza

SECTION: AM* for foundry and wire industries

11:10 AM for foundry industry

Boris Bychkov, i3D

11:30 High speed polymer printing of master models for castings

Sergey Blaginin, 3D Life Lab

11:50 Advantage of AM in creating metal blanks

Konstantin Lezhnev, AM.TECH

12:10 AM – a stage of traditional production or a new industry vector?

Mikhail Kulik, 3D Vision

12:30 EBM-technology:

3D printing with hard-to-weld alloys

Kirill Bolshakov, AM.TECH

12:50 Experience in implementing VoxelDance

Additive in preparation for 3D printing

Alexander Komarov, 3D Vision

*AM – additive manufacturing [3D printing]
